*The Convergence of Visual & Performing Arts*

## **Project Overview:**

**Dance Arts Gillette** will hold our annual Student Dance Concert on **May 26th, 2023 at the Cam-Plex Heritage Center**. We will have approximately 25 performance pieces in the full length show (1.5-2 hours in length) and our choreographers will choose a piece Art that inspires their story, music selection and choreography. A digital copy of the Artwork will be displayed on the cyclorama curtain (the backdrop) of the stage while the dance is being performed. The Artist's work will be cited in the show's program and the original piece of Art (or a reproduction) will be displayed in the Lobby/Gallery at the Heritage Center to be viewed before, during intermission and after the show at our dessert reception.

## **Artist's Benefits:**

All Artists involved will receive **2 Free tickets** to the Dance Concert and will be acknowledged **LIVE** during the performance.

The Artists will receive exposure and potentially reach a new market of Art enthusiasts. Dance Arts Gillette's annual Dance Concert **performs to an audience of 400+**.

Immediately following the show is a **Dessert Reception** where our guests and performers mingle and view all the Artwork displayed. Artist's may include their business cards and any other marketing material desired to accompany their display. (If Artists wish to sell their original Art or reproductions, they would need to be present and have the ability to collect funds).

All Artists involved in the project will receive social media exposure via our marketing campaign for the production of **Project: INTERSECT**. We would like to include a photo of the Artist, brief biography, contact information, web/social media links and any other details that the Artist would like to include.
